

TRAMONTO ROSSO BIO

APERITIF, ORGANIC, VERMOUTH

BIO043

Our Vermouth Tramonto Rosso Bio is obtained from high quality PGI organic red wine from Tuscany, with no caramel coloring added. The characteristic Sangiovese grape imparts a robust structure and exceptional depth to this refined organic aperitif. Following a traditional recipe we use a blend of 16 carefully selected organic botanicals, including Roman wormwood, cinchona bark, hyssop, angelica, thyme, yarrow and sage, to transform this noble wine into a vibrant aperitif, perfect for special moments at sunset - the so-called "tramonto"!

Serving suggestions

Neat with ice cubes as an aperitif, as an ingredient in organic cocktails, for instance for a special Americano, or for the refinement of meat sauces.
